Asset Management and Asset Visibility ...Knowing where your stuff is at!!!

San Diego Police and the California Highway Patrol chase a stolen military tank down Interstate 805. The tank was stolen from the National Guard Armory.

Background/Problem Statement

"A minimum 98 percent physical inventory accuracy rate (100 percent for classified or sensitive property) shall be achieved and maintained." DoDI 5000.64

- CMC White Letter 03-08 dated 16 May 2008 states that sustained combat operations of Marine Forces has presented commanders at all levels with a myriad of challenges to include equipment accountability.
- To meet that challenge commanders must apply the appropriate level of attention in the areas of equipment accountability IAW existing equipment accountability policy and procedures to ensure accurate readiness reporting.
- Commanders should leverage available resources to identify and correct equipment accountability discrepancies to include Marine Corps Equipment Information Readiness Tool (MERIT) data base and

"Sustained combat operations have presented challenges to commanders at all levels. One such challenge, equipment accountability, based on recent reports by the Inspector General, must be improved to ensure the Marine Corps can effectively meet ongoing and future mission requirements."
